DETAILED ACTION

Election/Restrictions

Claims 1, 26, 37, 57, 73, and 90 are generic to a plurality of disclosed patentably distinct species comprising: wherein the coating is one of the materials of claims 45, and 91-93, a component from the group of claim 46, a component from the group of claim 56, one of the materials of claim 66, one of the elements of claims 72, 89, and 96, a material from claims 81 and 86. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed (please note that claims 97-101 are directed to chemical transport and fuel cells and therefore if these embodiments are not elected these claims will be non-elected. For each of the claims listed, one of the elements of the Markush group needs to be selected because to not limit the Markush groups would require a burdensome search to be performed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard A. Booth whose telephone number is 308-3446. The examiner can normally be reached on Monday-Thursday from 7:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Niebling can be reached on 308-3325.
